Support staff seek 5% pay increase

By Gordon Rogers

Support workers at Conestoga College are seeking a 5% pay increase.

The bargaining team for support staff met with the Council of Colleges in May. The Council is the highest common authority.

Support staff at Conestoga College are represented by Local 202 of the Ontario Federation of Employees Union.

The latest contract state set in the fall of 1998. The union wants a 5% pay increase and support staff will negotiate a previous state agreement with the Council of Colleges which requires the attainment of the col-

lege's financial goals.

"Support staff have been good to the colleges. This time it's our turn," said John Walker, president of Local 202 at Conestoga College.

Walker said that during the previous contract, support staff had been given a 5% pay increase.

"When the support staff met with the Council of Colleges, they were very supportive of our needs," Walker said.

OCCSPA conference attended by CSI

By Dennis Byrnes

Continuing education for occupational and case managers continues a thoughtful conference for the Spokane Community College Occupational Assistance Association on May 14-17 at Portland College in Lehigh.

Stella Harris, CSI vice-president, was elected as chairperson of the conference's agenda which encompasses English, Healthcare, Learning, Microsoft and Other Colleges. Philip LaFren, OCCSPA, will be on the Spokane College Application Services support team conference.

The purpose of the conference was to share the knowledge and ideas among case managers. Dennis declined when invited to give his professional advice, but added some case management and OCCSPA issues. OCCSPA was established in 1983 and is a national organization that provides the latest in research for students in Spokane's community colleges.

The conference represents about 14,000 college students throughout Oregon and includes the presentation of the industry and the current work in business, education and training.

Some speakers at the conference included Bruce Hunsfield, chair of the Association of Colleges of Applied Arts and Technology of Oregon and Joyce Mueller, Oak County, who spoke about recent professional education.

"The conference was very interesting. I learned a lot from being there through speaking. I could have said, 'I wish I could have said,'" said Philip LaFren, president of OCCSPA Spokane for, formerly called the Open Student Association.

LaFren said there was some discussion on how to use the professional network. "The conference was a lot of fun. I was a good participant in the case studies. I was a good participant in the case studies. I was a good participant in the case studies."
